We are not afraid of a challenge. Bring us your ideas and we will do our best to build you the building you need for your space. No project is too big or too small!

Heritage Structures LLC.

ABOUT OUR SHEDS

We offer 4 different styles of sheds - New England, Heritage, Quaker and Eco-Storage. Each of these styles can be built with either vinyl or painted siding. We also offer Board & Batten buildings. Our goal is to build you a top of the line shed that is built to last!

We feel that attention to detail is very important; one example of this that you will find on our vinyl buildings is built-out corners on the inside of the building. We also include Full Length ridge vent on all our buildings and our vinyl buildings have vented soffit as well.

We are dedicated to building you a shed that will complement your property as it provides a solution to your storage needs.
